

DOTS AND SQUARES: Rules: The objective of Dots and Squares is to make more small squares than your opponent. To play, each player connects two adjacent dots with a line. Take turns making lines. If, when making a line, you complete a square, then you get a point, and another turn. Write the first

letter of your first name in every square that you complete; this will make it easier for you to keep track of points at the end of the game. The game is over when you cannot make anymore lines between adjacent dots. The winner is the person who has completed the most squares. Have fun!
